## PROFESSIONAL OVERVIEW

## WORK EXPERIENCE

### MERN stack Developer

Crest Infosystems

Surat

2024 - Present

I have been responsible for Maintaining highly performant React apps for an in-house project and then moved to a Client Project using GraphQL and Gatsby Framework, also worked on Nextjs, Node.js Projects for the same client for different platforms like Browser extensions, Website extensions. Responsible for 3rd party integrations like Firebase, Twilio SDK, GIF integrations, AWS Amplify Auth integrations.

### Project 1 - CHEM-ERP (React platform)

- Developed a comprehensive ERP system for the food color industry using React.js as the front-end framework
- Designed and implemented a highly responsive user interface, ensuring optimal performance across various devices and screen sizes
- Utilized React's component-based architecture to create reusable UI elements, improving development efficiency and maintaining consistency throughout the application
- Implemented state management solutions (e.g., Redux or Context API) to efficiently handle complex data flow within the application

### Project 2 - Engaged-AI (Gatsby & React native platform)

- Implemented GraphQL and Gatsby framework for enhanced performance and scalability
- Developed solutions for multiple platforms including browser extensions and website add-ons using Next.js
- Engineered robust Node.js projects, demonstrating full-stack adaptability
- Integrated third-party services including Firebase, Twilio SDK, GIF platforms, and AWS Amplify Auth
- Demonstrated proficiency in modern web technologies, adapting to project-specific requirements
- Implemented Mobile application based on react native that allow users to access the platform with their mobile phones
- Implemented firebase features like cloud messaging, Calling services, with the design language

## EDUCATION

### Gujarat Technological University

Bachelor of Engineering

Information Technology

Ahmedabad

2017 - 2021
